EDUCATION

Angular Web Developer
Pluralsight RoleIQ Level 2

Pluralsight.com - 2019

Bachelor of Information System
Bachelor of Management
University of Tasmania
Shanghai Ocean University

Shanghai, China 2004 - 2008

SKILLS

- Angular 7, TypeScript, RxJS
- NgRx (Redux Pattern)
- ES6, HTML, Sass, Git
- Firebase Firestore

PROJECTS

andregao.com
Personal website

Built with Angular Material and Flex-layout. Creating the site from scratch helped improve my practical knowledge of modern Web APIs, CSS flexbox, responsive layouts, and the view mechanics in Angular

mathangs.com
An ambitious todo list app

A "backend of the frontend" project that I plan to develop further. It currently uses firebase for authentication and data sync across browsers, enables drag and drop, manages client state with NgRx, and relies heavily on RxJS operators

EXPERIENCE

Intern Angular Developer
Indieparty Co. — Las Vegas, NV 2018

Reviewed code base and drafted technical documentations, studied best practices from the development team and learnt from tech lead on how to scale a production Angular application

VP of Sourcing
OrderWithMe Inc. — Hangzhou, China & Las Vegas, NV 2011-2017

Led a sourcing team that brought product ideas of our US clients to mass produced merchandise. In charge of manufacturing lifecycles from prototyping to quality control and logistics. Managed several private label programs and their supply chain operations across a variety of industries

Technical Director
Nihaoareyou Inc. — Shanghai, China 2009-2011

Supervised post production process, recruited and coached crew and editors, created visual effects and oversaw subtitle translations for all web content

Technical Manager
Shangby Inc. — Shanghai, China 2008

Managed camera crew and pre-production, ran live broadcast shopping events, created newsletters, maintained e-commerce site content and affiliate marketing program
